OPTIONAL PROCEDURES: ****PLEASE CIRCLE YES OR NO FOR EACH OPTION.**** All procedures listed below, unless stated in the above section, are optional and NOT included in your surgical cost or adoption package. If you decide to opt in to any of the below choices, you will be financially responsible for these costs.

****WOULD YOU LIKE YOUR PET TO GO HOME WITH AN E-COLLAR TODAY? YES NO COST: \$17.00**

The e-collar will help prevent your pet from licking and chewing on the incision site and is highly recommended. If your pet causes damage to the surgical site once they leave this facility, we cannot perform the repairs here and you will need to take your pet to your regular veterinarian for evaluation at your expense.

****WOULD YOU LIKE TO HAVE IN IV CATHETER PLACED PRIOR TO SURGERY? YES NO COST: \$25.00**

Placing an IV catheter does not guarantee that your pet will not have an anesthetic reaction; however, should an emergency occur while under anesthesia, the IV catheter allows us to administer appropriate corrective medication directly through the IV into the circulatory system. Your pet will also receive fluid therapy while under anesthesia through the IV catheter, which helps with surgical stability and recovery.

****WOULD YOU LIKE US TO MICROCHIP YOUR PET? YES NO COST: \$35.00 (INCLUDED IN ADOPTION FEES FOR ADOPTEES)**

We use PETLINK microchips, which have a FREE lifetime registration. These microchips can be implanted at any time, but it is easier and less stressful to implant them while your pet is under anesthesia.

****DOES YOUR PET NEED VACCINATIONS TODAY? YES, SEE BELOW (below, circle all vaccines to be done) NO COST: SEE BELOW**
